

## PARC 03

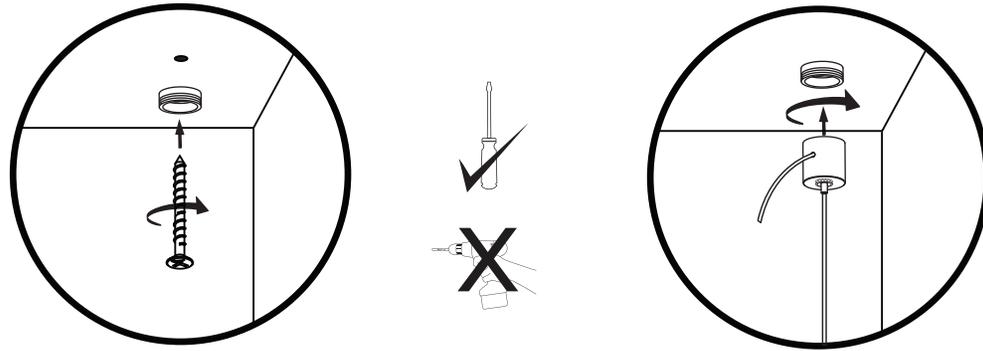

- Please read entire manual before beginning to install
- To be installed by an electrician to an electrical box
- Use appropriate screws where necessary
- Use appropriate anchors and ensure your electrical box can hold the weight of the luminaire.
- Wear enclosed gloves when handling lamp
- Handle materials with care. Please consult lamp maintenance sheet on our web site

Wear enclosed gloves when handling lamp, particularly the globe.  
Use 90% alcohol to clean globe.

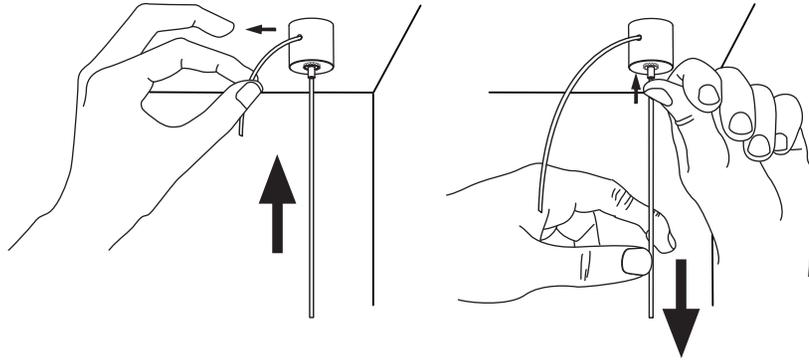

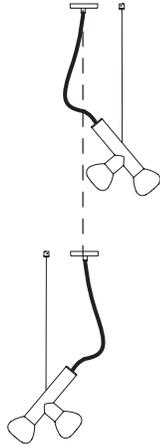

1

USE APPROPRIATE ANCHORS

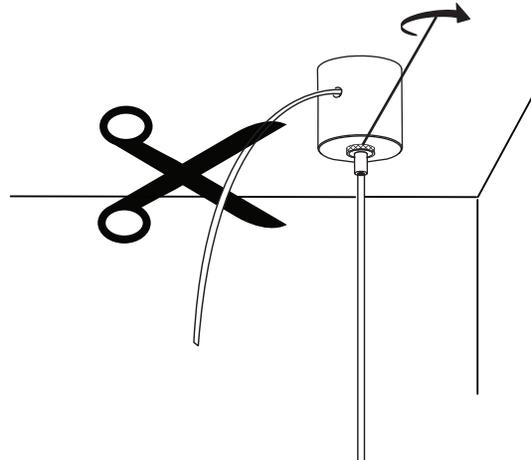

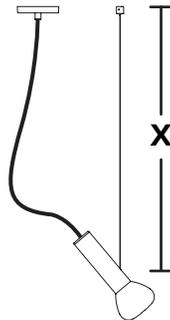

Note that the placement of your canopy in relation to the anchor will affect the direction of your luminaire

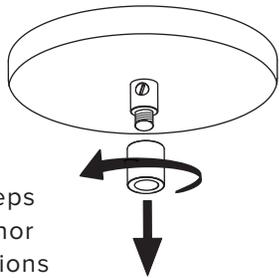

2

Secure the cable gripper then trim extra cable when desired level and height (X) are achieved

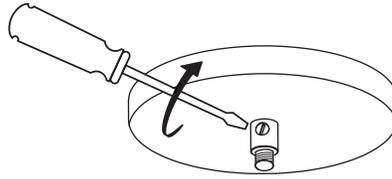

3

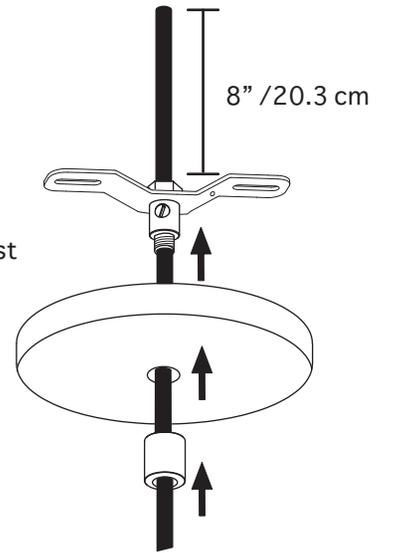

The following steps are for both anchor and no anchor options

4

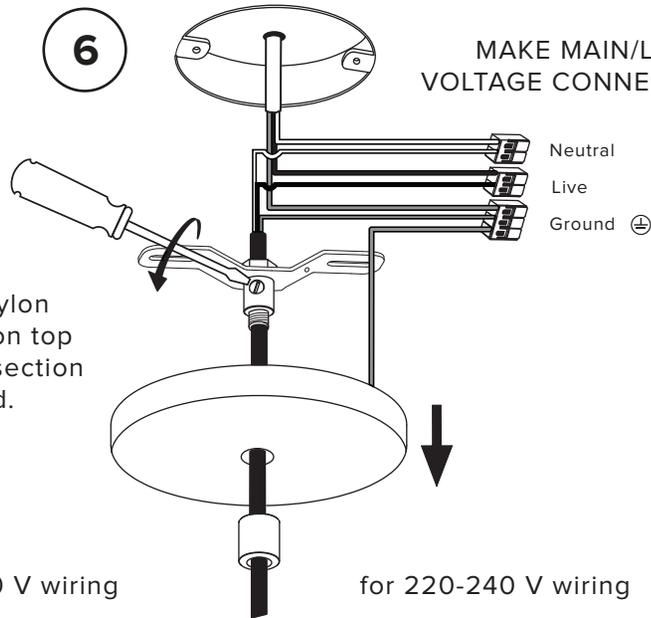

5

Feed cord through then adjust cord length. Leave at least 8" / 20.3 cm of cord after the bracket.

6

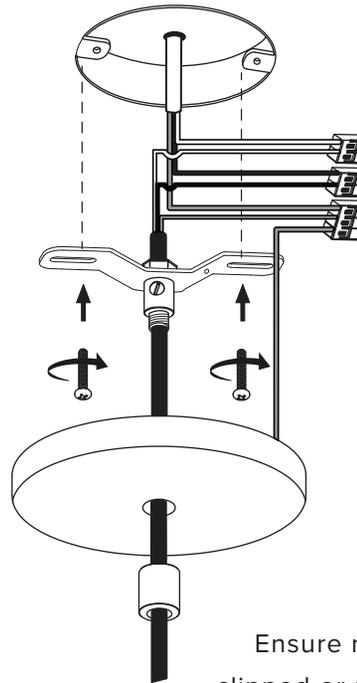

MAKE MAIN/LINE VOLTAGE CONNECTIONS

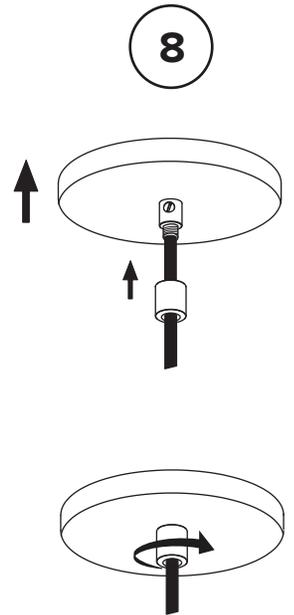

Tighten nylon set screw on top of sleeved section of cord.

Ground ⊕

7

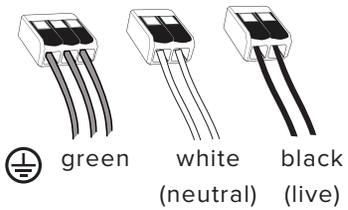

8

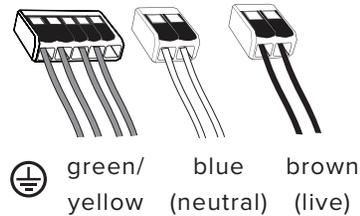

Ensure no wires are clipped or pinched during this operation.

for 120 V wiring

for 220-240 V wiring

9

Insert bulb and globe.

Wear enclosed gloves when handling luminaire, particularly the globe.

To clean the globe, ensure the luminaire is disconnected from supply, then use 90% alcohol to clean it.
