

## SAINTE 04

Sainte is a collection about the forces that anchor us, a suspension light in dialogue with gravity. Reimagining the rectangle in layered, colourful glass, Sainte offers an elegant floating mass supported by robust nylon ribbons. Powered by a flat wire embedded in the nylon, these anchors carry a casual, contemporary spirit: an everyday material flirting with its graceful, minimalist centre. The form can suspend from any height, at a specified angle, and in multiples, offering infinite architectures and possibilities. As a collection, it presents a dance of contrasting materials and an equilibrium of opposing powers.
