

# Laurent Atelier 01

This Laurent variation is poetic simplicity at its best. Inspired by the House of Cards game created by Charles and Ray Eames, its composition is meant to appear playful, like modules piled on top of each other in happenstance. Reminiscent of a children's mobile, it adds depth and movement to the original nomenclature of the Laurent, thus unfolding its full potential.

Some dimmers require a minimum load, check specifications.

\*Other dimmers that specify LED lamp compatibility may operate without issue.

We recommend conducting your own test before final installation.

\*\*Leading edge is also known as TRIAC or Forward Phase.

Trailing edge is also known as ELV or Reverse Phase.
