

Parc ATELIER 02

Parc ATELIER 02

This unique table version uses the duality of a sturdy, elegant long brass base on which a milky, delicate globe rests, giving the model a quiet authority and distinctive character. As brass gets better with age, this piece is sure to age well and get even more unique: the globe will remain exactly as it was, while the tube will be a testament to the times it will have witnessed.

Parc Collection is a collaboration with designer Adrien Rovero.

CONSTRUCTION

- brass body
- hand blown frosted glass
- brass or polyester cord

COLOR

- Brass
