## SILO 2 WALL

---

- Please read entire manual before installation
- Wear enclosed gloves when handling lamp
- Handle materials with care. Please consult lamp maintenance sheet on our web site
- Should be used exclusively as a lamp and not as a shelving, display or hanging unit

1

Using the provided allen key, unscrew the locking screw then lift and pull luminaire out of the keyholes.

2

Mark two diagonal anchor points, then mount bracket to wall. Make sure the installation is level.

\* Use appropriate anchors

3

Make connections inside luminaire or inside electrical box (if applicable).

Use provided anti-abrasive heat sleeve.

for 120 V wiring

for 220-240 V wiring

4

Prescrew the screw halfway onto the wall bracket (A).  
Fix luminaire to wall bracket using keyholes (B,C).

5

If applicable, use grey and purple wires for 0-10V dimming circuit, or the orange wires for DALI dimming circuit before closing the driver enclosure.
