

# PARC 07

Ceiling

Wall

Parc is a collection inspired by childhood imagination and the essentiality of homemade forms — created in collaboration with Swiss designer Adrien Rovero. Evoking the archetype of a flashlight, each lamp of the Parc Collection is a playful reminder of time spent in nature, when a simple tube and piece of string could be used to fashion any number of creations. These makeshift things, at once naive and functional, harness the unique beauty of peeling an object back to its essence.

\*Other dimmers can yield good results and we recommend conducting your own test before final installation.

---

Some dimmers require a minimum load, check specifications.

---

\*Other dimmers that specify LED lamp compatibility may operate without issue.

---

We recommend conducting your own test before final installation.

---

\*\*Leading edge is also known as TRIAC or Forward Phase.

---

Trailing edge is also known as ELV or Reverse Phase.
